ABSTRACT

This union list of purchased audiovisual materials for bibliographic instruction is based on responses to a questionnaire survey and it represents the relevant holdings of 37 academic libraries in Illinois. Excluded from the list are materials clearly designated for students below the high school level, materials produced or published before 1965, and materials about bibliographic instruction but not designed for direct use with students. The listing for each item includes the title, producer, format, a brief description, price, availability, and holding libraries. The questionnaire was sent to 112 academic libraries, and 91 responses had been received when this list was compiled. (RAA)

AN ILLINOIS UNION LIST OF COMMERCIALLY-PRODUCED AUDIOVISUAL MATERIALS FOR BIBLIOGRAPHIC INSTRUCTION

compiled by Carol Barry - Elmhurst College
for the IACRL Bibliographic Instruction Committee

In the spring of 1980, questionnaires were sent to 112 academic libraries in Illinois asking them to list their holdings of purchased audiovisual materials for bibliographic instruction. By August 1980, replies had been received from 91 schools (81%). 54 (59%) of those responding said they did not own any commercially produced A-V materials relating to bibliographic instruction. The following "union list" was compiled from the responses of the other 37.

Material clearly designated for students below the high school level was not included.

Material produced(published) before 1965 was not included.

Material about bibliographic instruction but which would not be used directly with students was not included.

An attempt to secure current catalogs of major producers was not always successful but current availability for purchase is indicated when known.

While this list may alert you to materials you were unaware of before, it was designed primarily as a means of putting you in touch with other librarians who own/use specific materials about which you may have questions. After each entry the libraries owning the item are listed along with the name of the person in each library most familiar with the material in question.

Several of these sets have been issued in more than one edition. The most recent one held by the respondents is described with notes about who owns earlier editions. Also if a still newer version is known to exist but not owned within our group, it will be noted.
